Layout Lab

Lesson 6

Agenda

- Review Lesson 5
- Introduce Final Projects
- Startup Matchmaker Lab

Lesson 5 Review

Code Along

Open: CSS Layout Review

Final Projects

FEWD Final Projects

Your final project should encompass all of the topics we discussed over the course of the class.

Be creative! Challenge yourself! (I'll help ensure you don't get TOO ambitious)

Looking for inspiration? Checkout

General Assembly's FEWD Gallery

Final Project Milestones

- **Week 5 - Milestone 1**: Project proposal and basic wireframes
- **Week 7 - Milestone 2**: Draft of HTML/CSS (no JS)
- **Week 8 - Milestone 3**: First draft of JS should be done
- **Week 9 - Milestone 4**: Updated rough draft of entire project
- Week 10 - PRESENTATIONS!!

Submitting Milestones

- Milestones should be submitted their respective weeks by **Monday 11:59pm ET** (just like HW)
- I've provided folders for each individual milestone in the **Final_Projects** folder of your repo
- Simply drop a copy of your files in the respective folder
- You can store the actual project files themselves in the **Project Files- INITIALS** folder

Grading Final Projects

The rubric for the final project can be found in your Final_project folder.

I also linked it here for easy reference:

Final Project rubric

Lab Time

Open:
starter_code/startup_matchmaker

Directions:

1. Open the **starter_code/startup_matchmaker** folder

Timing:

- **~130 minutes** - build a webpage that matches the design in the *StartupMatchmaker.png image*
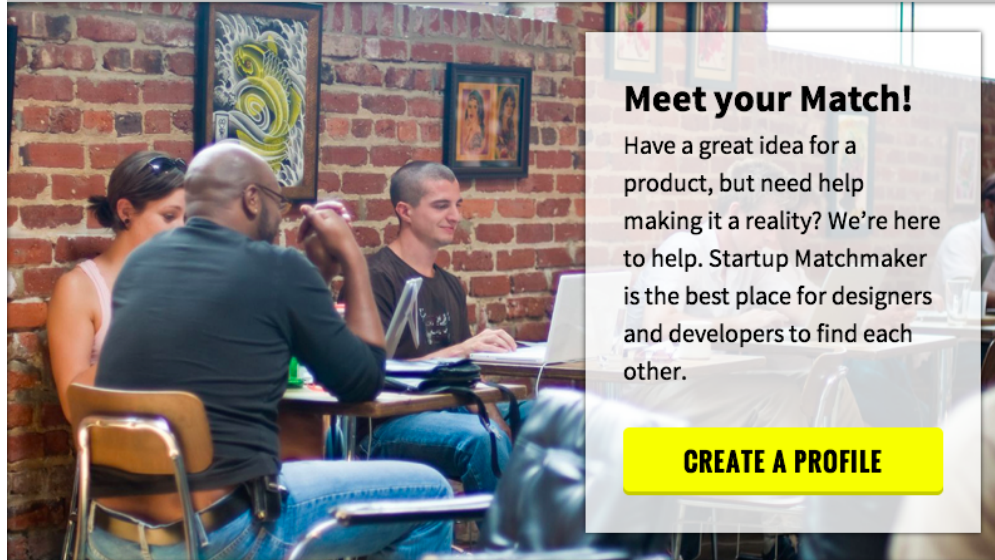

Tips:

- Use Flexbox to build your layout
- This page requires the use of several custom fonts that can be found on Google Fonts:
  - Source Sans Pro 400,700
  - Oswald 700
  - Merriweather 700,700italic
